

Seminar on Advances in Speech-Language Pathology Assessment and Neuromodulation in Parkinson's Disease

School of Rehabilitation and Behavioral Sciences, Vinayaka Mission's Puducherry Campus

The School of Rehabilitation and Behavioral Sciences (SRBS), Vinayaka Mission's Puducherry Campus, organized a workshop on "Advances in Speech-Language Pathology Assessment and Neuromodulation in Parkinson's Disease" on 19 May 2026 at the Annapoorani MPH Hall.

The program was organized under the guidance of Dr. Arun Banik, Director; Prof. N. D. Rajan, Advisor; Dr. Prajna Bhat, Deputy Director; Ms. S. M. Lakshmipriya (Assistant Professor, Organizing Secretary), and Ms. V. Jasper Priences (Assistant Professor, Organizing Secretary). The sessions were delivered by Ms. Srimathy Narasimhan, Senior Speech & Swallow Pathologist, Hyderabad, who shared insights into emerging diagnostic methods and neuromodulation-based therapeutic strategies for managing speech and voice impairments in Parkinson's disease.

The workshop featured two technical sessions:

- Emerging Advances in Speech and Voice Assessment in Parkinson's Disease
- Neuromodulation-Based Management of Speech and Voice Impairments

The sessions highlighted the evolving role of neuromodulation in clinical practice, offering participants valuable insights into patient-centered care. It provided an enriching academic platform, highlighting the evolving role of speech-language pathology in interdisciplinary care for Parkinson's disease.
